

More than 40,000 units are used in Japanese Restaurant !!!!

Rice navigation system works all processes with professional know-how for perfect quality.

All you have to do is just press a button. No more skill, No more experience, No more trouble!!

Rice Robot™ accomplishes each following process in perfect.

- 1.Measuring rice exactly on your set.
- 2.Washing rice softly, quickly, completely.
- 3.Dipping washed rice under the best condition.
- 4.Pouring the water with optimum volume.
5. Cooking rice automatically with the newest functions.
- 6.Supervising the time to keep cooked rice in steam condition

For More Easy Handling, More Secure Operation.A liquid crystal display shows timely what process is done while machine is working..

And also, it says what is a cause when something wrong happened for easy trouble shooting.Timer function releases you from the binding of works in the early morning.You can set the cooking time in advance up to 3 days later.

Every morning, when you come to a kitchen, fresh rice is there.Compact design is applicable to any type of restaurant even in a small kitchen.Only one space of a rice cooker is enough for the system.
